

COLORCASE AUTO PC (FROM v1.0a TO 2.1a) 06/2005

COLORCASE AUTO 1.0a & b & c (IPM v2.0) (07/2004) CD ISSUED (a = Mac only)

- same as IPM WORKFLOW SERVER 2.0a
- Includes Monitor calibration (binuscan Gamma Loader at start-up)
- AutoProfiler RT-64
- AutoProfiler I1 Pro
- 5 workflows pre-defined with associated icc profiles, job profiles and modules
- shortcuts for every workflow in binuscan program group
- in 1.0c, auto-installation of drivers & auto-detection for AutoProfiler works fine

COLORCASE AUTO 1.0d (08/2004) CD ISSUED (for Rolf)

- same as CCA 1.0c
- Fixes RGB calibration in AutoProfiler RT-64
- beta version of JobManager XPress 4.x NetDongle (none client dongle, only server)

COLORCASE AUTO 1.0e & f (09/2004) CD ISSUED

- same as CCA 1.0d
- release version of JobManager XPress 4.x NetDongle (none client dongle, only server)
- EyeOne Pro removed temporarily from installer
- Fixes AutoProfiler RT-64 detection on laptop and other bugs

COLORCASE AUTO 1.1a (09/2004) CD ISSUED

- same as CCA 1.0f
- new version binuNetDongle
- "heartbeat" mechanism between JM and Server preventing licenses lost in "broken" connections (crash, network cable unplugged, etc...)
- new version of JobManager XPress 4.x NetDongle
- now JobManager InDesign 2.x and 3.x NetDongle
- Fixes AutoProfiler RT-64 bugs, icc profiles, job profiles...
- EyeOne Pro back again with new job profiles
- better installation of binuscan profiles

COLORCASE AUTO 1.1b (10/2004) CD ISSUED

- same as CCA 1.1a
- Fixes AutoProfiler RT-64 bugs
- Fixes default JPEG IRB flag to "1" for keeping iptc
- new ipm and admin (5th of august 2004)

COLORCASE AUTO 1.1c (11/2004) CD ISSUED

- same as CCA 1.1b
- Fixes missing modules with encapsulated icc profiles
- binuscan monitor reference icc profile added

COLORCASE AUTO 1.1d (11/2004) CD ISSUED

- same as CCA 1.1c
- PRP sample images added on PC side
- Work load can be shared between multiple IPMs (F40 only)

On a multiprocessor machine, 2 IPMs should gain around 20-30%
or for 1 IPM per machine, scanning the same network folder

- Check origin of spec. files: if the spec. is not from JobManager AND if the IPM is not an F40 the IPM won't process (error message)

COLORCASE AUTO 1.1e (11/2004) *CD ISSUED*

- same as CCA 1.1d
- Fixes AutoProfiler RT-64 random bug

COLORCASE AUTO 1.1f (12/2004) *CD ISSUED*

- same as CCA 1.1e
- Fixes some AutoProfiler RT-64 bugs and localization
- PRP sample images added on PC (4)
- old STOCK folder removed

COLORCASE AUTO 1.2a (12/2004) *CD ISSUED (2)*

- same as CCA 1.1f
- Fixes some AutoProfiler RT-64 bugs and german localization added
- RGB job profile modified to convert cmyk input images to rgb
- AutoProfiler job profile added and one modified (2)
- Package structure for AutoProfiler on OS X (2)

COLORCASE AUTO 2.0a (12/2004) *CD ISSUED*

- same as CCA 1.2a
- splash screen added in AutoProfiler
- hints added in AutoProfiler
- admin recovery data files updated on PC

COLORCASE AUTO 2.0b+c (02/2005) *CD ISSUED*

- same as CCA 2.0a
- new SDK for calibration tools
- added support for Eye One Display2

COLORCASE AUTO 2.0d (02/2005) *CD ISSUED*

- same as CCA 2.0c
- NetDongle improvement on PRP

COLORCASE AUTO 2.0e (03/2005) *CD ISSUED*

- same as CCA 2.0c
- Fixes some AutoProfiler bugs and improvements

COLORCASE AUTO 2.0f (03/2005) *CD ISSUED*

- same as CCA 2.0e
- Fixes missing NetDongles.dll with JobManager for InDesign 2.0 and CS
- Fixes JobManager loading problem with InDesign CS and Windows XP SP2

COLORCASE AUTO 2.1a (06/2005) *CD ISSUED*

- same as CCA 2.0f
- AutoProfiler for RT-64+EyeOne "all-in-one"
- Fixes some AutoProfiler bugs improvements & interface optimisation

COLORCASE AUTO 2.1b (07/2005) *CD ISSUED*

- same as CCA 2.1a
- New version of AutoProfiler (Yougi)
